The Tractor AeroKit™ with Flex Fairing
Product Improvements

Discover the Latest Upgrades

LIGHTER WEIGHT | UPDATED DESIGN | ENHANCED DURABILITY

Improved Center Mounting Design

- **Heavy Duty Aluminum Bracketry**
 - ✓ Major durability improvements
 - ✓ Better corrosion resistance
 - ✓ Significant weight reduction
- **Redesigned Straight Mounting Bar**
 - ✓ Full access to 5th wheel with easy removal
 - ✓ More clearance from tires
- **Full Chain-up Compatibility**
 - ✓ Simplifies chain installs when needed
 - ✓ Extends out to provide extra clearance and remain installed while using chains

Rear Hanger Re-Imagined

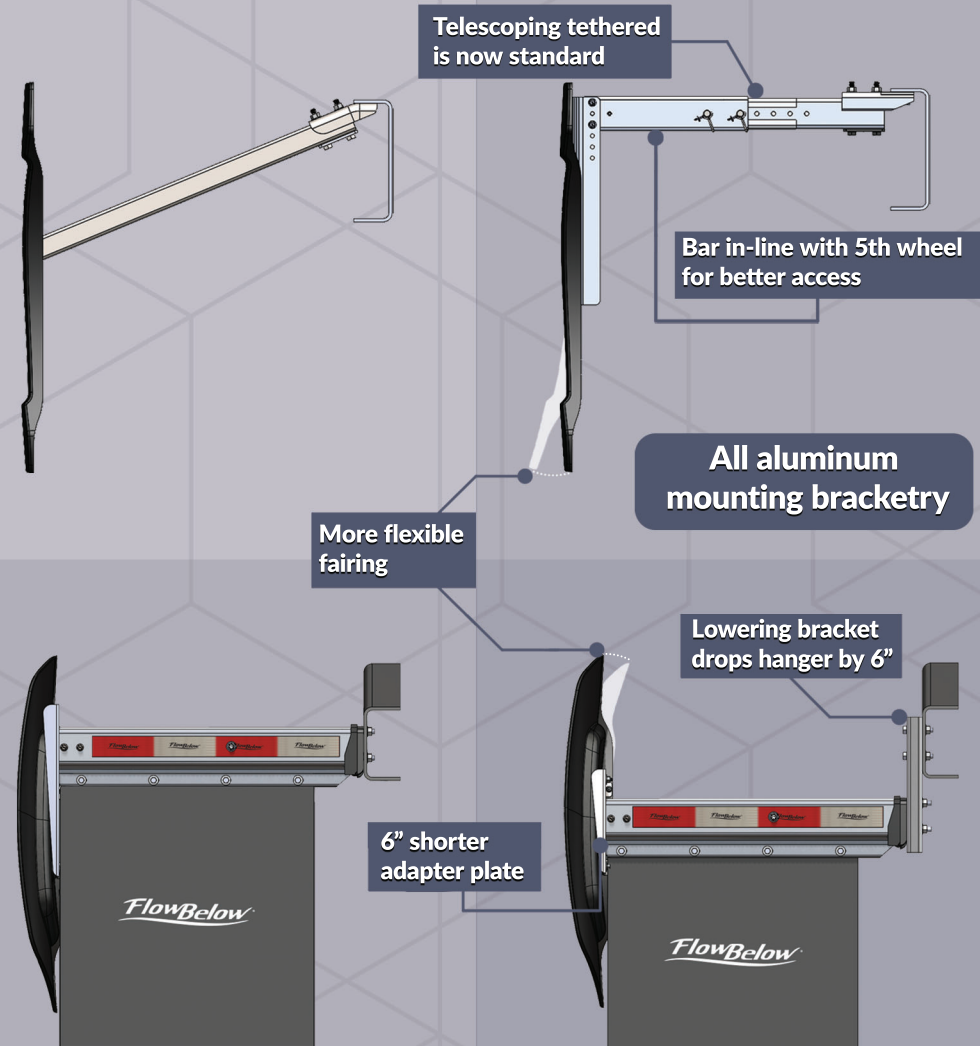

- Provides more clearance than a 45 degree hanger
- Potential impact damage to adapter plate significantly reduced
- Reduced stress on rear hanger due to less weight at the end

Fairing Material Upgrade

- Switch from TPO to TPE (rubber alloy)
- New material is substantially more flexible
- More durable for all flatbed/intermodal/pup trailers
- 17% lighter weight
